1. Return target above inflation is over rolling 10-year periods after fees and taxes. Investment markets are uncertain and future returns cannot be guaranteed.
2. Please refer to the Brighter Super *Product Disclosure Statement* and the *Investment and Fees Guide* at brightersuper.com.au/pds-and-guides for more information. Fees and costs can change from time to time. Includes 0.12% performance fee. Performance fees are included in the investment fees and costs for each investment option – they are not charged separately. Performance fees have been estimated by taking the average of the last five financial years. The actual amount charged in each financial year will depend on the performance of the options that have performance fee arrangements in place.

Portfolio investment philosophy and principles

Long-term investors

Investing to generate long-term returns for our members so that they can achieve their best possible retirement outcomes. We look through transient volatility, always with an eye to exploiting shorter-term opportunities as they arise, provided the risk-reward trade-off is skewed in our favour.

Diversification adds value

We focus on genuinely diversified portfolios to build risk-controlled and risk-aware portfolios, embracing risk efficiently where we believe it best delivers returns.

Asset allocation underpins returns

Strategic Asset Allocation (SAA) is the key long-term driver of returns and is best achieved with a mix of public and private market assets, with prudent use of illiquid assets to produce superior risk-adjusted returns.

Active management should be efficient

Active management can add value but must be optimised within an overall fee and risk budget framework to make every dollar count.

Committed to a responsible and sustainable approach

Environmental, social and governance (ESG) factors, such as climate change risks and opportunities, are long-term in nature and are key to delivering sustainable investment outcomes.

Brighter Super's Ready-made Multi-manager options bring together the skill and expertise of our investment managers across Australia and the world. SAA and investment managers for each asset class are listed in the table below.

Unlisted Assets

Brighter Super strategically incorporates unlisted assets, which are assets not listed on an exchange, into its portfolio. Unlisted assets are a key part of Brighter Super's strategy and portfolio as they provide both income and capital appreciation, while also offering defensive characteristics that contribute to a more resilient investment strategy.

The inclusion of these unlisted assets leverages their potential for more stable and predictable returns, diversification benefits, reduced portfolio volatility, and inflation hedging properties.

To learn more about our approach to investing in unlisted assets, including our governance and valuation methodologies please refer to the *Brighter Super Fund Factsheet - Unlisted Assets* at brightersuper.com.au/investments.
