

Let's tackle super payments together!

SuperStream is a package of Australian Government reforms designed to make the superannuation system easier to use.

Money and data must be transferred electronically, and all employers need to use a clearing house that is SuperStream compliant. That's where we come in.

LGIAsuper's clearing house is an easy-to-use online system that lets you submit super contributions for all your employees in one simple transaction.

It is designed to accommodate any changes introduced by SuperStream legislation and comes with the friendly support of our Employer Services team.

How many boxes do you tick?

We've set up a checklist on the following page to help you stay on top of your super obligations and prepare for the transition to the new clearing house. Check it out!
