Contributions can be made monthly, quarterly, half-yearly or annually. Your preferred contribution amount and frequency were set at commencement of the Plan. However, under the current rules, contributions can be discontinued at any time and subsequently re-commenced at the same or a different rate and at the same or a different frequency. Additional contributions can be made at any time by you or your employer.

If you stop contributing, premiums for any insurance you elected will continue to be deducted from your account balance unless you cancel the insurance.

Your Annual Statement provides details of contributions paid during the financial year and insurance premiums deducted, where relevant.

FEES AND CHARGES

Annual administration fees are deducted from your account. Investment fees and costs are deducted from investment returns before earnings are allocated to your account. This reduces the earnings allocated to your account.

Your Annual Statement provides details of administration fees deducted from your account, and investment fees and costs that are attributable to your investment.

INVESTMENT OPTIONS

There are two investment options available under your Plan: the Capital Guaranteed Fund and the Managed Fund. You can refer to the Brighter Super *Investment and Fees Guide* available at brightersuper.com.au/pds, for general information about investments and details of other investment options offered by Brighter Super. However, you can only access these other options by cancelling your Plan and opening a Brighter Super Accumulation account.

Your Annual Statement provides details of the asset allocation for each investment option you are invested in, the return for each option, and the amount of earnings allocated to your account for the relevant financial year.

Capital Guaranteed Fund – This investment option provides a high level of security by providing a capital guarantee for all amounts contributed and interest earnings accumulated. This investment option can never have negative interest earnings.

Managed Fund – This investment option invests in a diversified portfolio including shares, property and fixed interest securities in both Australia and overseas. Earnings allocated from time to time may be positive or negative.

Switching between investment options

You can switch between investment options at any time by notifying us in writing of your instructions. If we receive your valid switch request before 3pm in Sydney on a business day, the unit prices determined for the relevant options for that business day will generally apply.

INSURANCE COVER

If you elected Death cover, and/or Death and Total and Permanent Disablement (TPD) cover, when your Plan commenced, this cover will continue as long as your account balance is sufficient to cover the premiums, or until the cessation date of your cover.

You will be notified each year of the premium amount required to continue your cover for the coming year.

Your premium is either stepped or level, depending on what you chose when your Plan began. Stepped premiums increase each year based on the rates applicable for your age at that time, while Level premiums are based on the rate at the age when you commenced your cover. No matter which option you have, the amount of your insurance cover stays the same. Premiums are deducted from your account and applied proportionally across your selected investment options.

As your needs change, you can choose to reduce or cancel your life insurance cover at any time. However, you cannot increase your existing insurance cover or add new types of cover.

The circumstances where you are entitled to an insurance benefit, including conditions and exclusions, are set out in your original policy document. These will be different from the benefits, and the conditions and exclusions, that apply to other Brighter Super member categories described in the PDS and the Insurance Guides published on Brighter Super's website. You should refer to your individual policy document for details of your insurance benefits.
