Rates for Asteron Traditional Capital Guaranteed Fund (closed to new members)

Rates for the Asteron Traditional Capital Guaranteed Fund are net of investment fees and costs and tax only but before administration fees. The declared rate and special bonus are applied to your 30 June balance invested in the Asteron Traditional Capital Guaranteed Fund (i.e. combined together in the "Total" heading below for the period 1 July 2021 to 30 June 2022). The interim rate applies to full withdrawals and switches from 1 July 2022 and is also used to calculate investment performance (net of all fees and taxes) for this option.

	Declared rate		Special bonus	Total	Interim rate*
	Start date	End date			01-Jul-22 onwards
	01-Jul-21	30-Jun-22			
Super	1.84%		0.45%	2.29%	1.68%
Pension	2.00%		0.50%	2.50%	1.83%

Disclaimer:

* The interim rate reflects the return that members will receive should they exit during the financial year (i.e. for the 2022/23 financial year).

NOTES:

Past performance is not a reliable indicator of future performance.

'n/a' means no monies were invested during this period, so no performance is provided.

Pension investment performance applies to pensions in retirement phase. Please refer to the Suncorp Brighter Super performance report for the performance applicable to transition to retirement pensions.

We calculate investment performance using the withdrawal unit price for each investment option (excluding Asteron Traditional Capital Guaranteed Fund) in accordance with industry standards. Investment performance is calculated net of current fees, costs and taxes, such as the investment fee, the investment performance fee, the current administration fee and applicable indirect costs. However, when calculating investment performance we do not take into account any discretionary fees such personal advice fees, any special fee arrangements that apply (including any discounted fee that may have been arranged by your employer with the Trustee), nor the impact of contributions tax (or deductions) or any insurance fees which may apply to super accounts. From time to time the investment fees, indirect costs, estimated transaction costs and buy/sell spreads may change and these changes will be reflected in the report above.

Investment performance shown is net of all fees applicable to a member with a \$50,000 account balance.

~ Where an investment option has less than one year of performance data, the 'since inception' performance figure reported is the actual return the fund has achieved to date (therefore, short-term performance).
